PROFESSIONAL EXPERIENCE

NOBROKER.COM January 2022 - September 2022

Software Development Engineer-1 (Front-End Developer)

- Worked closely with the Vice-President on the successful execution of the Chat project.
- Contributed as a member of the UI team.
- Developed custom Chat and chatbot features as micro-services and implemented them in sub-products under Nobroker and NobrokerHood.
- Built UI and other features for Chat on web, Android, and iOS platforms using Hybrid web-view.
- Resolved UI bugs and alignment issues on the main page and other pages of www.nobroker.in.

Tech Stack: HTML | CSS | JavaScript | React | Redux-toolkit | Tailwind | SASS

PROJECTS

Namaste Swiggy | | git

A React-based application replicating the core features and functionality of Swiggy.

Features:
- Uses Swiggy's API to Browse Restaurants, Search by Restaurant name.
- Filter functionality filtering top rated restaurants.
- Complete check-out flow from restaurant listing to cart to payments.
- Fully responsive and mobile-friendly design.
- Uses Lazy loading, Suspense and Shimmer effects.

Tech Stack: React | Redux-Toolkit | JavaScript | Tailwind | DaisyUi | Jest

Areas of responsibility:
- Developed Landing page which displays all restaurants.
- Built Search, Filter and toast notification functionality.
- Built accordion for restaurant menu to display different categories.
- Used Redux and Redux-Toolkit for efficient state management.

Tools used: VS-Code | React Developer Tools | Redux Dev-tools | Postman
A Solo project built to practice React and frontend web development skills.

Cult Fit Clone | | git

Cult Fit is a Fitness and well-being website.

Features:
- Google-Auth | Normal Sign-In / Sign-Up.
- Booking Sessions in different workout section.
- User can select workout centers from the chosen city.
- User can checkout their own profile.

Tech Stack: React | Redux | JavaScript | CSS | MongoDb | Express | NodeJs

Areas of responsibility:
- Built Workout Page which contains different workout sections.
- Built Footer with adding responsiveness to it.
- Developed a Modal to book workout slot.
- Added Media query for a responsive website.

A collaborative project built by a team of 4 members and executed in 5 days.
